#### President and Chief Executive Officer's Comments

Carlos P. Naudon, Ponce Financial Group's President and CEO, stated "We were pleased to see continued improvement during the quarter: Net interest income grew for the third quarter in a row and, despite the challenging operating environment, net interest income was also up quarter over quarter. Book value per share was \$11.20 at year-end, up \$0.21 quarter over quarter and up \$0.43 versus last year. Total equity per share now stands at \$20.66. Additionally, in order to better manage our interest risk, during the fourth quarter, we entered into two pay fixed, receiver SOFR swaps, one with notional amount of \$150 million for 2 years and one with notional amount of \$100 million for 3 years.

We continue to show strong levels of capital and liquidity. On the capital front, our total capital ratio at Ponce Bank stands at 23.30%, well in excess of regulatory requirements. In terms of liquidity, our liquid assets plus borrowing capacity at the Federal Home Loan Bank of New York ("FHLBNY") stands at \$778.8 million, two times of our uninsured deposits of \$389.4 million.

We remain committed to the communities we serve, our Minority Depository Institution ("MDI")/Community Development Financial Institutions ("CDFI") status and continuing to invest in our people and in technology to improve our efficiency".

# **Executive Chairman's Comment**

Steven A. Tsavaris, Ponce Financial Group's Executive Chairman added "We were able to grow both loans and deposits by over \$100 million this quarter. We continue to see resiliency of our client base, but we'll prioritize sound underwriting practices and balance sheet management even at the expense of loan growth."
