President and Chief Executive Officer's Comments

Carlos P. Naudon, Ponce Financial Group, Inc.'s President and CEO, stated "Ponce continues to show strong results and deliver shareholder value. While the quarter includes some non-recurring items, our performance was robust even before accounting for those one-time events. Book value per share stands at $14.60, representing a $1.90 increase over the last twelve months. Furthermore, our net interest income continues to benefit from disciplined pricing and growth in earning assets, while non-performing assets decreased during the quarter to 50 basis points. Our capital position remains exceptionally strong and well in excess of regulatory requirements. We remain deeply committed to the communities we serve, and we will continue investing in both our people and technology to drive further operational efficiency."

Executive Chairman's Comment

Steven A. Tsavaris, Ponce Financial Group's Executive Chairman added "We are pleased with our robust business activity during the quarter. As previously reported, we filed our second-quarter Quarterly Supplemental Report (QSR), which marks 16 consecutive quarters of deep impact lending above the 60% required threshold to repurchase our Preferred Stock. The U.S. Department of the Treasury has confirmed that the Company met this deep impact threshold. Consequently, we are actively collaborating with Treasury and its legal counsel to finalize the next steps for the Preferred Stock repurchase."

ECIP

The consummation of any such repurchase of our Preferred Stock is subject to the satisfaction of additional conditions, including satisfying certain eligibility criteria. Although the Company currently expects that it will satisfy all other necessary conditions, there can be no assurance if and when such repurchase will be consummated with Treasury.

(1) Tangible book value per common share is a non-GAAP financial measure and is calculated by dividing tangible common equity by common shares outstanding. Tangible common equity is defined as total common shareholders' equity less goodwill and other intangible assets, net of applicable deferred taxes. The Company believes that tangible book value per common share is a useful measure for investors, regulators, and analysts because it reflects the Company's capital position excluding the impact of goodwill and other intangible assets, which may not be realizable in a liquidation scenario. This measure is commonly used in the banking industry to assess financial condition and capital adequacy. Tangible book value per common share should not be considered a substitute for book value per common share, which is calculated in accordance with GAAP, and the Company's definition of tangible book value per common share may differ from similarly titled measures used by other companies. During the periods presented, the Company did not make any adjustments for goodwill and other intangible assets, so tangible book value per common share is equal to the book value per common share as calculated in accordance with GAAP.

ECIP Disposition – Executed Agreement

On December 20, 2024, PFG entered into an ECIP securities purchase option agreement with the US Department of the Treasury (Treasury), allowing repurchase at a future date, subject to compliance with certain qualifications

The repurchase date could occur as soon as 4Q 2026, assuming satisfaction of the necessary conditions

Determination of sale price: based on the dividend discount model

While there can be no assurance as to the final repurchase price, **the price could be as low as 6.11%** under the current guidelines, (assuming a dividend rate of 0.50%, RFR of 5.68% (20 Yr Treasury as of 9/30/26), Beta of 0.50 and ERP of 5.00% and satisfaction of the deep impact condition)

Impact of ~8.73 $ per share, under the above assumptions, $225 million ECIP, 24.2 million common shares outstanding

Status on progress: The U.S. Department of the Treasury has formally confirmed that the Company met this deep impact threshold. Consequently, we are actively collaborating with Treasury and its legal counsel to finalize the next steps for the Preferred Stock disposition.

Community Development Financial Institution

As a CDFI, the Company has received over $5 million in federal grants

As of June 30, 2025, there were approximately 1,400 CDFI's operating nationwide, but fewer than 200 are banks, and the Bank ranks amongst the largest

The CDFI designation qualifies the Company for grants and capital opportunities such as the Emergency Capital Investment Program (ECIP), which the Company benefitted from in the form of a $225 million investment from the U.S. Treasury for Senior Non-Cumulative Perpetual Preferred Stock; only CDFIs and MDIs were able to participate in this program – it comes at no cost (to capital) for the first two years and includes rate reduction incentives after that with a cap of 2.00%

Ponce Bank has won awards and mandates for community development and ranks as one of the largest and most housing focused CDFIs in the country.

Rankings as of 2Q 2025

Out of the 20 top CDFI Banks (in Total Assets):

in housing focus in DLI-HMDA (% of housing lending in LMI communities) **5th**

- in total loans
- in total assets **6th**

The CDFI Program offers both Financial Assistance and Technical Assistance awards to CDFIs. These competitive awards support and enhance the ability of the Company to meet the needs of the communities they serve.

- Financial Assistance awards are made in the form of loans, grants, equity investments, and deposits, which CDFIs are required to match dollar-for-dollar with non-federal funds. This requirement enables the Company to multiply the impact of federal investment to meet the demand for affordable financial products in economically distressed communities.
- Technical Assistance grants are offered to CDFIs and Certifiable CDFIs to build their organizational capacity.

Minority Depository Institution

The Bank is designated an MDI, classified under the Federal Deposit Insurance Corporation (FDIC).

The FDIC defines an MDI as a federally insured depository institution for which (1) 51% or more of the voting stock is owned by minority individuals; or (2) majority of the board of directors is a minority and the community that the institution serves is predominantly minority.

As of September 30, 2025, the FDIC recognized 156 MDIs across the United States and its territories, with collective assets of approximately $385 billion.

One of 32 banks in the country designated as both an MDI and a CDFI.

Rankings as of 3Q 2025

Out of all the MDI Banks in Assets, the Bank ranks:

in total assets New York **3rd**

in total assets out of 156 MDIs **22nd**

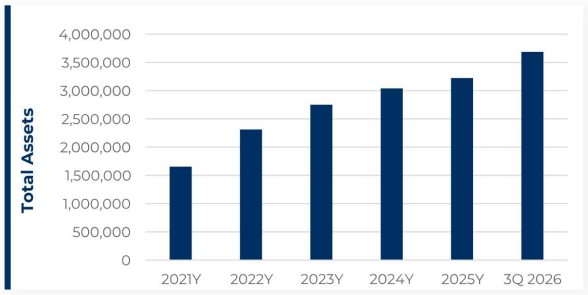

- As an MDI the Bank can provide financial services to and for underserved communities as designated by the federal government including African, Asian, Hispanic, and Native Americans.
- MDI designation allows the Bank to provide many benefits to low-to-moderate income communities, including access to credit, values-driven banking, international languages and locations, financial education, and community-specific services.

Tangible book value per common share -Non-GAAP	$ 14.60

Tangible book value per common share is a non-GAAP financial measure and is calculated by dividing tangible common equity by common shares outstanding. Tangible common equity is defined as total shareholders' equity less goodwill and other intangible assets, net of applicable deferred taxes. The Company believes that tangible book value per share is a useful measure for investors, regulators, and analysts because it reflects the Company's capital position excluding the impact of goodwill and other intangible assets, which may not be realizable in a liquidation scenario. This measure is commonly used in the banking industry to assess financial condition and capital adequacy. Tangible book value per share should not be considered a substitute for book value per common share, which is calculated in accordance with GAAP, and the Company's definition of tangible book value per share may differ from similarly titled measures used by other companies. During the periods presented, the Company did not make any adjustments for goodwill and other intangible assets, so tangible book value per common share is equal to the book value per common share as calculated in accordance with GAAP.
